

REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

AN DIGI LOG - 001R

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed

in patent number 6,252,709, granted 6/26/2001, and for which a reissue patent is sought on the invention entitled:

Adaptive Temperature Control Circuit with PWM Output

the specification of which

☒ is attached hereto.

☐ was filed on _____ as reissue application number _____

and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

I claimed less than I had a right to do so.
After reviewing the specification and claims with Patent Attorneys, Donald J. Lenkszus, I determined that the claims did not cover the method of adjusting the output, the novel temperature sensor disclosed, the digital aspects and the single chip construction.
